

## ZUMRO Medical Surge Shelter, Model 860

*Ideal for Medical Surge Capacity and Negative Pressure capable when connected to a ZUMRO Isolation Shelter with integral Ante-Room entrance and Ventilation Control.*

**ADDITIONAL COLORS AVAILABLE!**

YELLOW
RED
BLUE
O.D. GREEN

The new Model 860 is designed for the growing need of Medical Surge Capacity or other large scale Emergency Shelter needs. Based on our successful framing technology this Shelter is just as strong and easy to deploy as our popular Model 400. Both ends of the Shelter can be connected to other ZUMRO Shelters including the Isolation Room with integrated Air-Lock Entry and our new Quad Interface Shelter. Various Curtain configurations such as patient privacy curtains, Room Partitions and Center Dividers are available (*as shown*). The Shelter can be ordered with Windows, ID Panels and various Doors. Interior Curtains are removable for unobstructed space requirements.
