

### KUBOTA 11KW DIESEL GENERATOR ON ALL-TERRAIN CART

The Kubota "ALL-TERRAIN" prime power 11KW Diesel Generator is designed to go where other 11KW generators cannot with wide 6.5" no flat turf tires mounted on an all steel powder coated tube frame. This stable platform allows the generator to be moved over the roughest of surfaces. The reliable and hardworking Kubota generator provides a full 11KW 120/240V single phase power supply. The generator saves space with its small footprint. Designed to have the minimum possible height while using a vertical diesel engine. Easy one-side maintenance with a large swing-up side panel for quick engine inspection and maintenance. Safety features include automatic engine shut down if the water temperature is excessive or oil pressure drops below a safe level and double circuit protectors to prevent over current damage. One-point lifting, "T" handle for pull/steer and lockable braking system make this all in one system extremely easy to transport.

## SPECIFICATIONS

Design: Salient-pole, revolving-field AC generator (AVR system with separate and self-excitation brush)

Power Rating: 120/240V, Single Phase, 60Hz, 41 Amps, 11KW Stand By, 10KW Prime Power

Diesel Engine: Vertical, Water-cooled, 4-cycle diesel, 3-cylinder, 3600 RPM

Fuel: Diesel Fuel No. 2 (ASTM D975), 7.4 US Gallon Tank, 7 Hour Run Time at Full Load

Weight/Dimensions: 712 lbs, 53" Long X 35" Wide X 43" High
